Extended Acute Care Facility Request for Proposals

Magellan Behavioral Health of Pennsylvania, Inc. (Magellan), in collaboration with Community Care Behavioral Health Organization (CCBHO), Bucks, Chester, Delaware and Montgomery Counties are soliciting proposals for an Extended Acute Care Program. This request is being made to increase inpatient psychiatric community alternatives as a result of the State closure of civil inpatient admissions at Norristown State Hospital in 2017. In order to offset this reduction, the counties are seeking to increase community-based treatment options that will effectively meet the needs of individuals with complex psychiatric needs. All proposals must be for a 20-bed hospital-based program affiliated with a medical institution. Respondents must ensure that no component part of their proposed program will meet the definition of an Institution for Mental Diseases (IMD) as IMDs are specifically excluded from eligibility. All proposals must be geographically relevant to Bucks, Chester, Delaware, and Montgomery Counties, but not necessarily located in these counties. Please note that part of this RFP involves identification of expenses and what your organization would need to make this program successful. We understand that there may be initial funding barriers and use of County reinvestment dollars may be an option.
