

Magellan's PCP Toolkit gives a practitioner the screening tools and information needed for behavioral health referrals

Magellan's PCP Toolkit for medical providers offers consultative tools to deliver integrated quality care and coordinated behavioral healthcare for your patients. Visit [here](#) for access to the PCP Toolkit.

PCP Toolkit online resources at your fingertips:

- Descriptions of common behavioral health conditions
- User-friendly screening tools for diagnosing behavioral health and substance use disorders
- Easy-to-read patient handouts
- Provider tip sheets
- Assistance with consultations and referrals to behavioral health experts
 - Provider Services for Bucks & Montgomery Counties: (877) 769-9779
 - Provider Services for Cambria County: (800) 424-3711
 - Provider Services for Lehigh & Northampton Counties: (866) 780-3368

Magellan values a whole health model of care in which an individual's health and wellbeing is supported across behavioral, physical, and environmental factors. We are committed to promoting integrated care in our communities and building bridges with medical practitioners to improve care coordination and outcomes for patients. Tap into the whole health resources [here](#).

By integrating medical and behavioral health services, together we create better outcomes for patients.
