

Magellan's Pennsylvania Team Volunteers Together at Spring Cleanup Projects

This Spring, Magellan Behavioral Health of Pennsylvania (Magellan) created cleanup projects for employees at Rails to Trails locations across the Commonwealth of Pennsylvania. These projects were led by Anita Kelly, clinical contract advisor for Magellan. The volunteer opportunities provided employees with the chance to get together with coworkers in a relaxed environment, while simultaneously providing a service to the community. Plus, getting out of the office for a Volunteer Time Off (VTO) benefit is a great opportunity to enjoy a beautiful Spring Day!

We encourage our provider network and community stakeholders to consider similar opportunities in the future with the locations listed below or at other locations close to you.

Saucon Valley Rail Trail in Northampton County

- **About:** On April 17 (see below), a team of volunteers from Magellan did Spring cleanup along the Saucon Valley Rail Trail and Native Plant Garden.

Jim Mayer Riverwalk Trail in Cambria County

- **About:** On April 21, a team of volunteers from Magellan and a few family members did Spring cleanup along the Jim Mayer Riverwalk Trail.

Silver Lake Park in Bucks County

- **About:** On June 12, a team of volunteers from Magellan are scheduled to do litter removal along the lake at Silver Lake Park.
