Patient Access API Compliance Report

In accordance with 42 CFR 438.66(e), the Centers for Medicare and Medicaid Services (CMS) requires, as part of its monitoring system for all Medicaid managed care organizations, that each state submit to CMS no later than 180 days after each contract year, a report on each managed care organization administered by the State.

CMS added the below Application Programming Interface (API) metrics for the calendar year 2025 report.

The Office of Mental Health and Substance Abuse Services requests that Behavioral Health Managed Care Organizations (BH-MCO) **complete and return this reporting template annually by March 15**, to ensure that the metrics can be incorporated into the Department of Human Services' Managed Care Program Annual Report (MCPAR) submission by the federally established deadline.

For additional information, please review CMS's Medicaid and CHIP Managed Care Reporting | Medicaid webpage.
