Prior Authorization Tip for Multiple NPIs

When submitting a prior authorization request with Magellan's Authorization System via Availity Essentials, you do not need to select a specific NPI for the 'Servicing Facility' if multiple NPIs are associated for the same service location. If searching your NPI number gives you any issues, we recommend you search by the servicing facility name that is in-network for the requested level of care and location. **Please make sure to check that your TIN and service address, that you are currently contracted for, are correct before submitting the authorization.**

Please share with colleagues as appropriate.
