Magellan Behavioral Health of Pennsylvania, Inc. (Magellan) invites you to attend a

FREE online interactive live CE webinar:

Best Practices Series

Mental Health Data Tracking and Outcomes

This training provides behavioral health professionals with a practical framework for using data to inform clinical decision-making and demonstrate treatment outcomes for children, adolescents, and families. Participants will explore the differences between screening, assessment, progress monitoring, and outcome measurement, while learning how to establish meaningful baselines, select appropriate measures, track progress over time, and interpret results within the context of a child's daily functioning and treatment goals. Emphasis is placed on measurement-based care, using data to guide treatment planning, support quality improvement, and clearly communicate progress while maintaining ethical, culturally responsive, and client-centered practices.

Date: Thursday, December 3, 2026
Time: 9:00 A.M. – 10:00 A.M.
Location: Teams
System Requirements: A device with internet connection and speakers to participate in live, interactive webinar.
Cost: **Free of Charge** - Registration is required.
Registration: Register here

After registering, you will receive a confirmation email containing information about joining the meeting.

Presenters:

Dr. Adriana Torres-O'Connor, PsyD, MBA, MSW is the Psychologist Advisor for Magellan Behavioral Health of PA. She provides consultation to the care management team and supports children's service providers striving to provide effective and accountable treatment services to the individuals and families they serve. Dr. Torres-O'Connor has extensive experience providing learning, development and consultation services, program evaluation and program development in mental health and educational settings to support clinical and operational excellence and accountability. Prior to joining Magellan, Dr. Torres-O'Connor has held clinical and operational leadership positions within children's, adult and family services in community, center, and education-based settings.

Presenters Disclosure:

Dr. Adriana Torres-O'Connor, PsyD, MBA, MSW have no relevant financial relationship commercial interest that could be reasonably construed as a conflict of interest.

Target Audience: This activity is targeted for all IBHS, FBS and RTF clinicians, support professionals and systems partners.

Training Goal: To strengthen clinicians' ability to collect, interpret, and apply meaningful outcome data throughout the course of treatment, enabling them to make informed clinical decisions, monitor progress toward individualized goals, demonstrate treatment effectiveness, and improve outcomes for children, youth, and families.

Learning Objectives:

- At the conclusion of the training, participants will be able to:
- Tell the difference between screening, assessment, progress monitoring, and outcome measurement.
- Pick measures that fit the child, your question, the setting, and your goal.
- Build a starting picture (a baseline) that covers symptoms, daily life, safety, strengths, and context.
- Use data collected over time to help make care decisions.
- Share results in a clear and ethical way.

Eligible CE Clock Hours (1)

Upon request, all other health care professionals completing this event will be issued a certificate of participation. For information on applicability and acceptance of CE credit for this activity, please contact your professional licensing board.

How to Obtain CE Clock Hours

To obtain CE clock hours you must attend the live webinar in its entirety and complete the course CE evaluation via a web link to be given after the conclusion of the course. Upon completing the course requirements, you will be issued a certificate. Partial attendance is not accepted. After completion of course requirements, a certificate will be issued online to download and print.

If you have questions about the course requirements or CE clock hours, contact:
